

## Clinical Policy: Non-Formulary Injectable Antibiotics

Reference Number: IL.PHAR.15

Effective Date: 9/1/18

Last Review Date: 7/19/21

Line of Business: Medicaid

[Coding Implications](#)

[Revision Log](#)

See [Important Reminder](#) at the end of this policy for important regulatory and legal information.

### Description

This policy is to be used to determine medical necessity of existing or newly approved intravenous antibiotics where no custom coverage criteria are available.

### Policy/Criteria

Provider must submit documentation (such as office chart notes, lab results, or other clinical information) supporting that member has met all approval criteria.

It is the policy of health plans affiliated with Centene Corporation® that all medical necessity determinations for drug therapy without Centene® custom coverage criteria or for off-label uses be considered on a case-by-case basis by a physician, pharmacist or ad hoc committee, using the guidance provided within this policy.

### I. Initial Approval Criteria

#### A. Infections Caused by Susceptible Bacteria (must meet all):

1. The drug is prescribed for an FDA (Food and Drug Administration) – approved indication; by or in consultation with an infectious disease specialist;
2. Culture and sensitivity (C&S) report (dated within the past 7 days) shows isolated pathogen is susceptible to the antibiotic being requested, unless provider submits documentation that obtaining a C&S is not feasible;
3. Member meets one of the following (a, b, c, or d):
  - a. Culture and sensitivity report shows resistance of the isolated pathogen to ALL Preferred Drug List (PDL) antibiotics that are FDA-approved for members diagnosis;
  - b. Member has failed treatment with PDL antibiotics to which the isolated pathogen is susceptible, unless contraindicated, intolerant, or agents are not indicated for members diagnosis;
  - c. Provider documents that obtaining a C&S report is not feasible, and member has tried and failed 2\* formulary antibiotics indicated for member's diagnosis, unless all are contraindicated or clinically significant adverse effects are experienced;
  - d. Member has been discharged from the hospital on requested antibiotic.
4. Prescribed doses do not exceed product labeling maximum recommended dosing.

**Approval duration: Up to a 6 week duration**

---

\*Provided 2 formulary antibiotics exist to which the pathogen is susceptible and/or are indicated for member's diagnosis

# CLINICAL POLICY

## Non-Formulary Injectable Antibiotics

### **B. Other diagnoses/indications**

1. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): CP.PMN.53 for Medicaid.

## **II. Continued Therapy**

### **A. All requests (must meet all):**

1. Currently receiving medication via Centene benefit or member has previously met all initial approval criteria;
2. Documentation supports positive response to therapy (examples: sign/symptom reduction, no disease progression, no significant toxicity);
3. If request is for a dose increase, new dose does not exceed dosing guidelines recommended by clinical practice guidelines and/or medical literature.

**Approval duration: 30 days**

## **III. Diagnoses/Indications for which coverage is NOT authorized:**

- A. Indications or diagnoses in which the drug has been shown to be unsafe or ineffective.

## **IV. Appendices/General Information**

*Appendix A: Abbreviation/Acronym Key*

FDA: Food and Drug Administration

C&S: Culture and Sensitivity

PDL: Preferred Drug List

*Appendix B: General information*

- The U.S. FDA approves drugs for specific indications included in the drug's product information label. The approval by the FDA means that the company can include the information in their package insert. Omission of uses for a specific age group or a specific disorder from the approved label means that the evidence required by law to allow their inclusion in the label has not been submitted to the FDA. Off-label, or "unlabeled," drug use is the utilization of an FDA-approved drug for indications, treatment regimens, or populations other than those listed in the FDA-approved labeling. Many off-label uses are effective and well-documented in the peer-reviewed literature, and they are widely used even though the manufacturer has not pursued the additional indications. Refer to the drug's FDA approved indication(s) and labeling (varies among drug products).

## **V. Dosage and Administration**

- A. Refer to prescribing information

## **VI. Product Availability**

- A. Refer to prescribing information

### **Important Reminder**

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. “Health Plan” means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan’s affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible

## CLINICAL POLICY

### Non-Formulary Injectable Antibiotics

for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

#### **Note:**

**For Medicaid members**, when state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.

**For Health Insurance Marketplace members**, when applicable, this policy applies only when the prescribed agent is on your health plan approved formulary. Request for non-formulary drugs must be reviewed using the formulary exception policy.
